

SupplierPortal 100

The start of your responsible supply chain

SupplierPortal 100 provides you with a fully managed assessment of up to 100 suppliers, in just eight weeks.

This programme provides you with a simple way to be confident that your suppliers are compliant, and to demonstrate a robust approach to supplier risk screening and due diligence.

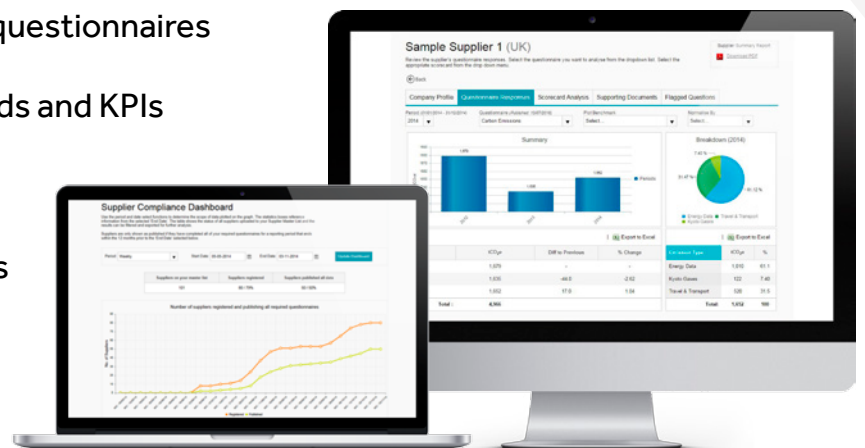

Is SupplierPortal 100 for me?

- Do you worry about the unknown potential risks in your supply chain?
- Are you facing new requirements to comply with supply chain legislation?
- Are you under increased stakeholder pressure to address supply chain risk?
- Do you lack internal process and resource to engage with your suppliers?
- Are you unsure what information to gather from suppliers?

The SupplierPortal 100 programme

SupplierPortal 100 utilises Greenstone's SupplierPortal enterprise software. This means that we can provide our clients with a quick and accessible programme to address supply chain risk. Our fully managed service engages and assesses your suppliers, and provides you with peace of mind.

-  Fully outsourced supplier assessment
-  Pre-built supplier assessment questionnaires
-  Standardised supplier scorecards and KPIs
-  Individual supplier reports
-  Unlimited SupplierPortal access
-  Customisable content
-  A scalable solution

SupplierPortal 100: How it works

The SupplierPortal 100 programme is a simple way for you to comprehensively assess up to 100 suppliers, in eight weeks. Greenstone manages the entire process, providing support, content, and supplier review services.

Step 1 – Supplier on-boarding

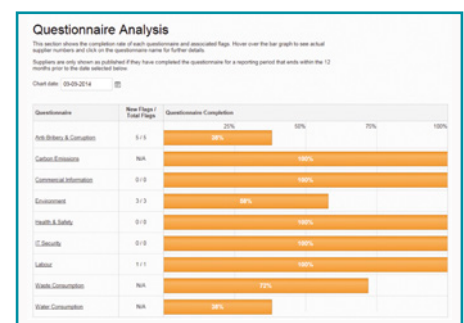

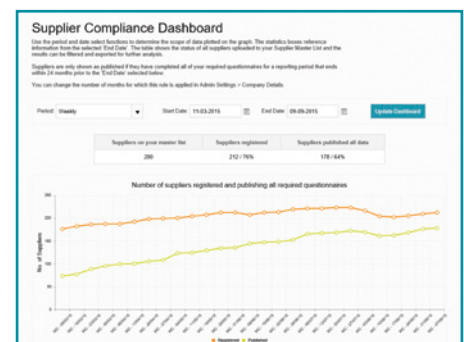

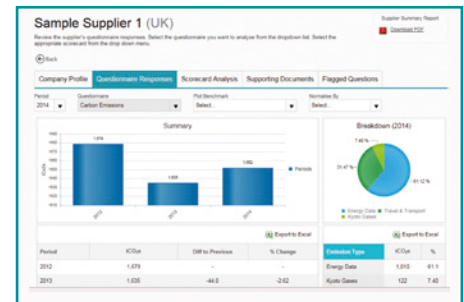

- Fully managed service by Greenstone
